The applicant, MK Environmental Ltd., LLC, has applied to the Division for the construction and operation of a lined wastewater impoundment facility designed to recycle restaurant grease and vegetable oils. The proposed facility is to be located in the Apex Industrial Area, 20 miles northeast of downtown Las Vegas at 11101 U.S. Hwy 93 North, North Las Vegas, Clark County, NV 89124. The applicant proposes to construct in two phases, two ½-acre (surface area) double-lined (HDPE) evaporation ponds, which will store and evaporate the wastewater recovered from recycling restaurant grease and vegetable oils. The facility is limited to an inflow rate not to exceed 3,600 and 6,400 gallons per day, respectively, in the two construction phases. The Division has made the tentative determination to issue this zero-discharge wastewater impoundment permit for a period of five (5) years.
